Linen

The secret for the world's finest linen shirting fabric is enclosed in a beautiful blue flower of the plant *Linum Usitatissimum* that grows in Europe. Its quality is a combination of three positive factors: the availability of appropriate soil, the favourable climate, and the flax growers expertise.

Nature, composition and architecture of the fibres give linen excellent properties: maximum resistance, a high capacity to absorb humidity, insulating and thermo-regulating properties and hypoallergenic characteristics.

Albini selects exclusively the best European linen: control and traceability throughout the supply chain are guaranteed by the Club Masters of Linen, which identifies the 100% Made in Europe fabric.
